

Nurse Practitioner Program Student Clinical Guidelines

The Student:

1. Reviews clinical module in Canvas prior to beginning courses with clinical component.
2. Completes and submits appropriate clinical requirements (clinical paperwork, preceptor request forms) to clinical coordinator and ensures clinical contract is in place prior to the start of each clinical rotation.
3. Ensures compliance with pre-clinical requirements, as appropriate (immunizations, background check, drug screen).
4. Obtains Typhon account and orients self to system.
5. Acquires faculty approval for sites and preceptors prior to beginning clinical rotation(s).
6. Collaborates with faculty member to develop individualized clinical learning objectives.
7. Communicates with clinical preceptors prior to start of clinical rotations to discuss clinical days and times, to review course and individual objectives, and to exchange contact information.
8. Arrives to clinical site at agreed upon time. If changes occur, student will inform preceptor and clinical faculty member as soon as possible.
9. Actively engages in clinical experiences and seeks learning opportunities.
10. Maintains an electronic log of patients seen, procedures observed, assisted with, or performed, clinical hours completed, and conferences attended.
11. Completes self-evaluation, evaluation of preceptor, and evaluation of site at conclusion of each rotation.
